GAE Committee Public Hearing

To the distinguished members of the GAE Committee:

I am Jamarr Farmer, and I'm a working class citizen from New Haven. We need you to vote "yes" on SJ 33 because of all the issues that money in politics have caused. Getting this amendment passed would give politicians more of chance to work on what their constituents need - opportunities that we as Americans dream of - rather than what their donors want. I see democracy as a chance to change our country for the for the better, not as an opportunity for a small group of people to rule over the country when cannot relate to the average American. You have already been leaders in this movement, and hope you'll continue our mission. Thank you for your time.
